

## ENERGY STORAGE

Submission ID	Author	Title	Mode of Presentation
2	Swatilekha Ghosh	Solid-state and Sonochemical Synthesis of Anode Materials in the Na-Li-Ti-O system	Poster
6	B Purusottam Reddy	Enhanced Supercapacitive Performance of Copper Oxide Thin Films Prepared by RF Sputtering	Oral
10	Sandhya Cp	Ni-Sn Alloy for Anode Material in Rechargeable Lithium-ion Batteries	Oral
11	G Prathibha	Growth and Properties of RF Sputter Deposited Li[Ni <sub>0.5</sub> Co <sub>0.25</sub> Mn <sub>0.25</sub> ]O <sub>2</sub> Film Cathodes	Poster
16	Shibnath Samanta	Energy Storage Study of Lead Zirconium Titanate around the Morphotrophic Phase Boundary	Poster
19	Jickson Joseph	Hierarchical flower shaped Ni <sub>3</sub> (NO <sub>3</sub> ) <sub>2</sub> (OH) 4 structures as supercapacitor electrodes: Exploring the effect of morphology and electrolytes on stability and performance	Poster
28	Mani Chandran Thirumoolam	Preparation and Characterization of Sn-Mo Thinfilm Anode For Li ion Micro Batteries	Poster
30	Ananda Kumar Manikandan	AAO Template Assisted Sn Nano Wire As Anode For Li Ion Batteries	Poster
34	Amrutha Ajay	NiMoO <sub>4</sub> nanoflakes as electrode material for supercapacitors	Oral
36	P Senthil Kumar	Structural and Electrical Properties of Yttrium doped LiNi <sub>0.5</sub> Mn <sub>0.5</sub> O <sub>2</sub> Cathode Material for Lithium Ion Battery	Oral
45	Amruthalakshmi V	Camphoric carbon/LTO composite electrodes for high power lithium ion supercapacitor	Poster
53	Anoop Somanathan Pillai	Shape-tweaked Co(OH) <sub>2</sub> nanostrands simulating 3-D fur ball like structures as building blocks for highly efficient supercapacitor electrodes	Poster

<b>85</b>	K Sivajee Ganesh	Structural and Electrochemical properties of Zr doped LiCoO <sub>2</sub> thin films	Poster
<b>91</b>	Muhamed Shareef Kolathodi	MnO <sub>2</sub> Encapsulated SnO <sub>2</sub> Electrospun Nanofibers for High Performance Asymmetric Supercapacitors	Oral
<b>116</b>	Bikash Mandal	A Novel Aqueous Li <sub>4</sub> Fe(CN) <sub>6</sub> Cathode and Hydrophobic Ionic Liquid Electrolyte Combined Lithium Battery	Poster
<b>124</b>	Anjali Paravannoor	3V asymmetric supercapacitor prototypes using carbon grafted NiO electrodes in an aprotic ionic liquid.	Poster
